Summary

Hi, my name is Ovdiu-Alexandru Ciobanu

Brasov Native

I have a passion for web development and digital technologies, and I'm eager to join a full-time role where I can apply my skills and learn new ones. I'm a self-taught coder who enjoys working with others and solving problems creatively. I'm confident that I can add value to any company that values innovation and collaboration.

In my free time, you can find me outside with my dog.

Experience

Frontend Developer
Asociatia Oportunitati si Cariere
Sep 2023 - Present (9 months)
Projects: City Search Application, Scraper-UI

• Key Learnings:
- Proficiency in HTML, CSS, and Vanilla JavaScript for web development projects.
- Enhanced understanding of JavaScript ES6 features, including Promises, async/await, template literals, let/const, and arrow functions.
- Experience in building responsive and user-friendly interfaces to improve usability and enhance user experience.
- Skill development in identifying and resolving bugs to ensure smooth functionality and optimal performance.
- Strengthened documentation skills, including the creation of comprehensive guidelines for project usage, maintenance, and troubleshooting.
- Improved collaboration and communication skills through working with colleagues and providing technical support and guidance.
• More about what I learn in Works section from my portfolio.
